Sweet
SERENITY

WELCOME

to the Beauty News 03/14

Emotions are in! Romance undergoes a new high, be it in Fashion, Architecture or the Beauty Industry – this seasons focus lies on letting emotions flow freely and to touch the senses. Neo-Romance the trend concept accompanying the Fashion World this autumn. Thanks to the multitude of medial communications platforms it is possible to make ideas, emotions and thoughts accessible even faster to even more people than before. And lets be honest, what is nicer than to share nice things with each other? By disclosing our emotions an inner calmness and serenity which will let us appear strong and delicately beautiful at the same time.

From left to right – Photographer: Carina Jahn, Model: Lea Banasch, Styling: Christian Greb, Head of Marketing: Christiane Secker, Hair & Make-up: Franke Bergemann-Gorski, Photo-Assistent: Joscha Brück

Sweet Serenity – our declaration of love to all who dare to show emotions. As we were choosing the trend colours for this subject together as a team, we had no problem to find the key trend nuances. Rosé and Raspberry in combination with neutral, earthy colours embody emotions in perfection. And now we wish you loads of fun discovering the third Beauty News Edition this year and hope that we can touch your senses with Sweet Serenity as well as a multitude of new products. We hope that our passion for LCN will jump over to you even more.

*Yours sincerely,
Christiane Secker with the complete LCN Marketing-Team*

NATURAL NAIL BOOST

Discover the new, revolutionary
NNB System exclusive from LCN

STRENGTHEN, PROTECT, GROW

Naturally beautiful and strong nails –
with a system to perfection

Before

After

A Revolution in the professional Nail Care

The NNB System introduces itself:

The NNB (Natural Nail Boost) System protects the natural nail and ensures that your own nails can grow more beautiful and even. Naturally beautiful nails are more popular than ever. But natural nails are not always beautiful. In a lot of cases women (and men) are suffering from brittle, soft and flaking nail plates. Natural nails can be severely stressed and weakened also after sculpted nails. In addition grooves as well as irregular nail surfaces provide an imperfect polishing base. The NNB system functions like a protective shield and offers as a solvent-resistant Permanent-Gel-Polish a perfect polishing base.

The NNB gel ("clear" and "even brighter") grows out over time or can be refilled time and again as needed. Transitions and chippings are perfectly polished out and concealed with the NNB Care Set. For the application with the NNB Gel "even brighter": transitions and chippings will be covered with the NNB Polish "even brighter" after using the NNB Care Set.

The Result:

- ✓ Nails appear more beautiful, stronger and more even
- ✓ The nail plate can regenerate itself during the application
- ✓ The extremely thin layer of the Natural Nail Boost Gel appears like a conventional Top Coat
- ✓ **Natural Nail Boost is extremely flexible thanks to its special formula and will not break even in an extremely thin layer.**
- ✓ **This is a unique and exclusive characteristic developed by a team of LCN scientists.**

SKIN CARE: MESOPORATION

Mesoporation serves the purpose of skin rejuvenation, Cellulite treatments and the breakdown of fatty deposits. By means of an electrical field, microscopically small channels are being created through the upper layer of the skin and the cells of the underlying tissue. Due to these newly build channels, which will close again after the treatment, cosmetic and pharmaceutical active ingredients can be transported into the skin and the underlying tissue as effective as an injection – but without needles and injections.
